

Structure how it is built (materials/shape)

Function what it does

How are structure and function related?

the structure of an object allows it to do a specific function

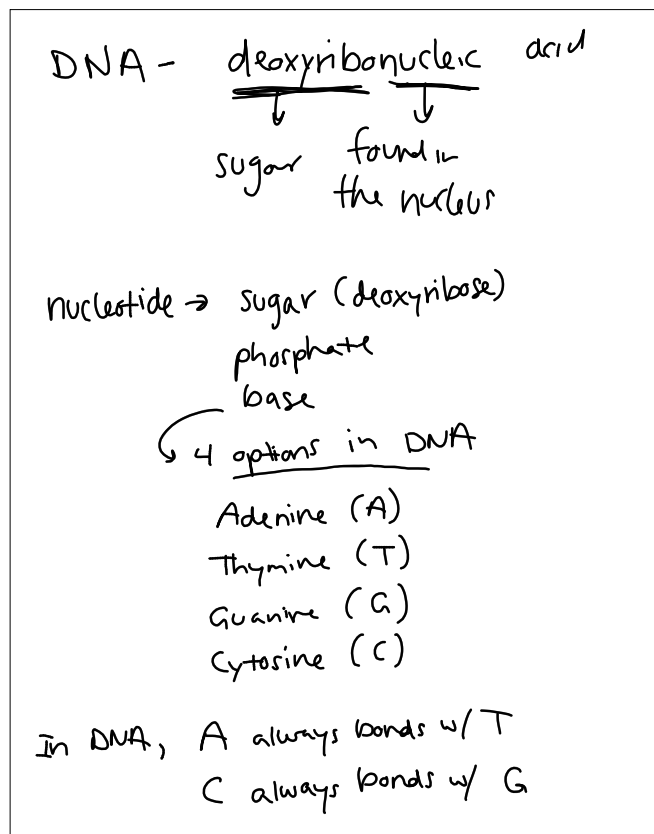

Jan 7-1:23 PM

DNA pre knowledge:

1. Diagram what you think DNA looks like (label any important parts).
2. Where is DNA found in the cell? nucleus
3. Why is DNA important?

DNA stores info to make → proteins → determine your traits
